# Our local knowledge and customer services ...

## Local knowledge

We have now spent over 4 years fitting out various developments and individual properties throughout Cape Verde, one thing is for sure and that is that whilst properties are generally the same throughout a development there can be subtle differences particularly with regards to terraces.

We have visited the site, taken account of the size and shape of your apartment when recommending the right furniture in particular bed sizes, assessed the curtain requirements, and finally the size of your terrace to recommend the outside furniture we feel would suit best.

## The Team

In addition to our permanent team in Sal we have our UK office who control procurement, logistics and customer service as you may require. We pride our coverage of the whole process from enquiry to installation.

Complete  
Kitchen and dining  
package

As all of our furniture is custom made in Portugal if special sizes are required these can generally be accommodated, but we try to standardise where at all possible. To this end to ensure that your furniture pack suits your individual size and shape of your apartment/villa, we will take measurements and discuss our recommendations with you before we go into production.

# Furniture packs and additions ...

Bringing years of luxury furnishing experience to Cape Verde

Dreamy

furniture packs.

## Furniture Pack

As you are aware, taxes in Cape Verde are excessive. We can advise you that 40% of the cost of the furniture package comprises shipping, taxes including primarily duty and of course IVA. Prices quoted in this brochure are inclusive of all taxes and installation costs.

## Additions

The following pages lists inventory and prices for the various apartments and villas, although comprehensive is intended as a guide. All inventories assume that all white goods are installed and that there is a sofa bed. Therefore each property is provided with sufficient additional items to accommodate the two occupants over the number of bedrooms. The all-weather rattan is a suggestion, but here this can be changed dependant on the individual size and shape of terraces

## Special Requests Payment

Whilst it has not always been practicable we have been able to ship along with furniture packs special items that customers have wanted in Cape Verde, this has ranged from treasured personal assets, to an orthopaedic bed to an outboard engine for a boat. Anywhere in Europe is normally not a problem.

10% with order; 20% at the start of processing; 50% when goods are en route from Portugal to Boa Vista. The final payment of 20% will become due within 14 days of the installation being completed or before use whichever is first. Staged payments are inclusive of IVA. Stage payments respect our client's wishes to pay as little as possible at the order stage. Thus our low deposit payment when the order is finally confirmed and moved into production. A timely payment of 50% is required prior to the goods arriving in Boa

Vista. By this time all shipping costs have been paid along with taxes and IVA. The final payment of 20% will be due as soon as the installation is complete. If you wish to have the package independently verified this is no problem to us. Full terms and conditions will be presented prior to order.
